THE VIKINGS' STORY

It was a day that the members of the Viking village looked forward to every year. On this day everyone in the village celebrated the full harvest with contests of bravery and skill throughout the afternoon followed by a grand feast at dusk.

The most anticipated event of the day was the hunt. In this competition, the best huntsmen from the village venture into the wilderness to see who could catch the most game for the evening’s feast. By noon, all the participants had arrived at the starting point of the hunt, except for three Vikings who lived just outside the village. Since their tardiness was nothing new, the decision was made to start the hunt without them. Upon hearing the horn, indicating the beginning of the competition, Olaf the Stout and his two buddies, Baleog the Fierce and Erik the Swift simply rushed into the forest to prevent the others from having too great of a head start.

Meanwhile, the infamous intergalactic zookeeper, Tomator, piloted his space craft to Earth through a fiery vortex that appeared high above the fjords of the Baltic Sea. Tomator was sure that he could find adequate specimens for his zoo on this tiny planet. He commanded his ship to begin its descent as he made preparations to go on a hunt of his own.

As Olaf the Stout, Baleog the Fierce and Erik the Swift walked home from the feast, they were still bragging over their triumphs in the hunt. When each brother had finished claiming that he was a better hunter than the other two, they retired to their cottages, oblivious to the strange flying object that had appeared directly over their village.

Tomator brought his craft closer to the ground, trying to locate the three specimens that he had previously chosen. He had noticed them earlier, when they appeared to be the victors of some primitive ritual of skill and strength. After a few minutes, Tomator’s computer located the selected humans and began to teleport his unsuspecting captives aboard his ship.

Erik, the swiftest of the Vikings, was awakened suddenly to find himself suspended above his bed and being pulled upward. Despite his efforts to resist, he was drawn through the top of his hut and into the night sky. Next, Olaf the Stout and Baleog the Fierce experienced the same fate as they too were pulled from their beds, toward the strange metallic object in the sky.

With the acquisition complete, Tomator took his craft out of orbit. Due to a short circuit during the teleportation process, the Vikings materialized in the corridors of Tomator’s ship rather than in his specimen room. Now the Vikings only hope to return home is the use of their skills and the strange vortices that can carry them through time and space.

Your story begins with the three Lost Vikings aboard Tomator’s ship, and only with your help and expertise can they find their way back home again.

You must guide the Lost Vikings through the complex maze of Tomator’s space craft. Use Erik’s speed, Baleog’s weaponry and Olaf’s defensive abilities to help return these poor lost souls to their village.
HOW TO PLAY

The goal of The Lost Vikings is to help Olaf the Stout, Baleog the Fierce and Erik the Swift find their way back home. To do so they must successfully solve all the levels of the game going through time and space to many different eras, until they confront and defeat their captor, Tomator.

To successfully complete a level all three Vikings must get to the "EXIT" alive. They will then continue onto the next level. At the end of the last level of each era there will be a vortex that will warp the Vikings to the next era in time.

Each Viking starts each level with three health points and no items. These health points can be lost either one at a time or all at once depending on what type of enemy or obstacle does damage to the character. The health status of each warrior is represented by the three red dots under their picture in the status bar at the top of the screen. Health points can be restored by eating food that can be found throughout the game. They can also use armor to get a bonus health point represented by a blue dot.

To complete the level the Vikings will have to use their skills in many different ways to solve the puzzles. Many times the Vikings will have to use their skills cooperatively.

When the Vikings get to a new level you will be given a password. Write this down in the back of this manual. You will be able to restart the game later by using this password.

If at any time a Viking has died or you feel that they are stuck in a position making the level unsolvable, you can give up by pressing a PAUSE key (described on page 7 or 9) and then selecting YES. Doing this will bring all dead Vikings back to life and they will restart the level.

There are many hidden places throughout the game. If the Vikings find these places, they are sure to find something valuable.

In the early levels there will be hint buttons with '?' in them. When a Viking is near one of these you can press the $ key to get a hint.

SAVING THE GAME

The Lost Vikings allows you to continue where you last left off by entering a password. The game will give you a password at the beginning of each new level you reach. In case you forget to write down the password at the start of a new level, you can retrieve the password again by pressing D, E or S at the funeral screen.

Erik, Olaf, and Baleog want to remind you to write down your passwords on the page provided in the back of this manual. This way you will always know where it is and you will never have to replay levels that you have already completed.

To start the game from a saved password, select PASSWORD from the START screen. Enter your password by using the Up and Down Arrow Keys or type it in for faster entry. If you type the password in, it will automatically go to the next letter, if you are using the arrow keys, then use the Right Arrow Key to move to the next letter. If you have made a mistake in the password, use the Left Arrow Key or Backspace to undo the error.

CHARACTER PROFILES

AILMENTS: Athlete's foot, frequent headaches

FAVORITE PETS: Cheetahs, jaguars, falcons

DESired BIRTHDAY PRESENT: A football helmet

FAVORITE HOLIDAY: Groundhog Day

FAVORITE QUOTE: "It is better to run and jump away from enemies than it is to let them smash you into little pieces." - Anonymous

COMMENTS: The tactical genius and self-proclaimed leader of the party. Erik is the swiftest and most agile of the Vikings which makes him an indispensable part of any expedition. His wit and resourcefulness are often key to resolving difficult situations. However, he has a short attention span and gets easily agitated by sitting in the same place too long. In fact, his patience is often times too thin to tolerate his two brothers. Despite these shortcomings, he proves to be a valuable companion on any adventure.

STRENGTHS: Erik is the swiftest Viking. He can outrun any enemy and leap high into the air. He also has a head of stone which he can use to bash open walls.

WEAKNESSES: Erik has no defensive capabilities, which leaves him very vulnerable if he goes out scouting by himself. His speed can also be a liability at times if you are not careful.
CHARACTER PROFILES

NAME: Baleog the Fierce

AGE: 25

HEIGHT: 6'0"

WEIGHT: 220 lbs.

FAVORITE HOLIDAY: Labor Day

FAVORITE BAND: Aerosmith

FAVORITE QUOTE: "Enter the mill and you will come out floury and baked." - unknown Danish baker

PRIZED POSSESSIONS: Sword-shaped letter opener, long underwear

COMMENTS: Baleog's enormous ego is tolerable only in light of the martial skill he provides to the expedition. When he's not accusing his brothers of being lazy or weak, Baleog can often be found sharpening his sword and contemplating his strategy for world conquest. Nonetheless, despite his sometimes less than pleasant company, Baleog is a fierce foe to any that stand in a party's way.

STRENGTHS: Baleog can attack with his sword and shoot arrows. He can also use arrows to activate switches that are a long distance away.

WEAKNESSES: He has not yet mastered the art of defense. Therefore he usually hides behind Olaf's shield during battles with formidable foes.
CHARACTER PROFILES

FAVORITE FOOD: Meatloaf, sprinkled doughnuts
ULTIMATE FANTASY: To be a Sumo wrestler

FAVORITE BOOKS: ABC-123, Green Eggs and Ham
FAVORITE QUOTE: "Life is just a big banana. Be careful not to slip on the peel and all will turn out fine." - Uncle Beorn
FAMILY: Married with two children
FAVORITE TOY: Yellow rubber duck named Elvis

COMMENTS: This jovial Viking, with his hardy constitution and steadfast resolve, can be counted on in any situation. His appetite for adventure is rivaled only by his passion for pastries. Unfortunately, he is often seized by unprovoked laughing fits, making extended travel with him somewhat tiresome. His hulking presence is, however, greatly appreciated in the heat of battle.

STRENGTHS: He can use his shield to block enemies and their shots. He can also hold his shield above his head and float long distances, which gives him great maneuverability.

WEAKNESSES: He has to wait for Baleog in combat situations and his shield can not always protect him and the other Vikings from certain foes that have jumping capabilities of their own.
