Main Menu

The main menu offers three options:
1. Begin a new game.
2. Resume a recently saved game.
3. Return to the DOS prompt.

Character: Choice, Selection, and Movement

1. Choosing a Character:
   You can select one of the available characters:
   - Edward Carnaby, a private detective hired by a local antique dealer interested in the mysterious jewels.
   - Harry Merton, a local detective skilled in the art of deduction.

2. Character Selection:
   After choosing a character, you will be able to select a weapon. Each character has a unique set of weapons.

3. Weapon:
   The character can move in any direction, using the arrow keys. The movements are controlled by the arrow keys:
   - Move the character forward.
   - Move the character to the left.
   - Move the character to the right.
   - Move the character backward.
   - Move the character horizontally.

   To make the character move, press the up, down, left, or right arrow keys.

Problem: The "Not Enough Memory" Message is Displayed.

On your IBM or Xycom Workstation (WSW) program in RAM.
- Stereo, High Resolution, and MS-DOS software, including the game's graphics, can sometimes cause the computer to run out of RAM space. You may need to increase the amount of RAM available.

Solution:
- Increase the amount of RAM available by adding more memory modules.
- Use a different graphics driver that requires less RAM.
- Disable the high-resolution graphics mode.
- Use a different software package that requires less RAM.
