CRIME CITY - PC SUPPLEMENT

HARD DRIVE INSTALLATION

Crime City can be played from floppy or hard drive. The game is faster and more convenient when run from a hard drive, so if you have one installing the game is a good idea. To do so:

1 Switch on the computer and insert the disk (disk 1 of the 5.25" set) into your floppy drive
2 Change to that floppy drive by typing its name (a: or b:)and pressing ENTER.
3 Type INSTALL C:\CITY and press ENTER.
4 Users of 5.25 inch disks will be told when to replace the first disk with the second.

The computer will create a directory CITY on your hard drive, and copy all relevant files into it. In fact, you can specify any pathname you like in step 3. The game will be stored in the directory you request.

LOADING FROM THE HARD DRIVE

1 Switch on your computer
2 Ensure that you are in your hard drive (prompt = C:\ D:\ etc)
3 Go to the CITY directory by typing CD CITY <ENTER>4 To run the game, type CITY <ENTER>

LOADING FROM A FLOPPY DISK

1 Switch on the computer and insert the disk (disk 1 of the 5.25" set) into your floppy drive.
2 Change to that floppy drive by typing its name (a: or b:) <ENTER>.
3 Type CITY <ENTER>
4 Users of 5.25 inch disks will be told when to replace the first disk with the second.

GRAPHICS MODE

The game can be played with either VGA or EGA graphics. After loading, you will be shown a menu from which to choose your graphics mode. You will also have the option to cancel, and return to DOS.

SOUND AND MUSIC

If you have an AdLib compatible sound card, the game will include music and sound effects. It will automatically detect whether you have a card or not.

USING THE KEYBOARD

Crime City can be played using either mouse or keyboard. To control the game with a keyboard, use the cursor keys to move the mouse pointer about, and ENTER to simulate a mouse button click.
